*turning on the light for Good Governance*

## Neighbor to Neighbor Voting Guide November 2014

In addition to the candidates in this election we have several **IMPORTANT decisions** on the ballot.

Of vital importance is keeping our current county commissioner elections Non-Partisan. Moving to Partisan elections will result in voter suppression for hundreds of thousands of your neighbors who are Independent or NPA voters. Your vote is your voice, don't allow outside special interests to disenfranchise you or your neighbor's vote!

### Proposed Orange County Charter Amendments

#### YES on Question A

Regarding procedural time-frames of Petition Initiatives - Would allow sufficient time for citizen review of initiatives and for impact studies to be conducted.

#### YES on Question B

Regarding Subject Matter of Petition Initiatives - Would prevent out-of-state special interest groups from forcing a job-killing agenda on residents and businesses of Orange County.

#### NO on Question C

Regarding Partisan local elections of charter officers - Would prevent over 200,000 registered independent and NPA voters in Orange County from participating in primary elections and would lead to local elections being polarized by partisan politics, resulting in one-party control.

#### YES on Question D

Regarding Term Limits and Non-Partisan Elections for County Constitutional Offices - Would limit corruption and accumulation of power by career politicians, and help protect Orange County from polarizing political agendas.

### Statewide Constitutional Amendments

#### Vote NO on #1

Regarding Water & Land Conservation -- Read more from [Coalition for Property Rights](http://proprights.com/) (<http://proprights.com/>).

#### Vote NO on #2
